

Float Drains

For Compressed Air System Applications

The drain is an important component of compressed air system treatment equipment. Without a drain, water and contaminants can not be discharged from refrigerated air dryers, filters, mist eliminators, storage tanks, and air lines. Count on PREMIER condensate drains to perform in a variety of compressed air applications.

PREMIER Model 697360:

- Use In Relatively Clean Applications
- External Mounting
- Requires No Electricity
- Easy To Clean And Maintain
- Durable Construction

Model 697360

Model 600569

PREMIER Model 600569:

- For Use In Heavy Emulsion Applications
- Requires No Electricity
- Easy To Clean And Maintain
- Non-Corroding Internal Parts

Model Number	Connection Size	Maximum Working Pressure	Dimensions
697360	1/4" NPT	250	Approx. 1.875" dia. X 2.000" length
600569	1/2" NPT	200	Approx. 4.500" dia. X 5.750" length
